A MESSAGE FROM THE CHAIRMAN

“EAMCO was founded on three simple principles: operational excellence, quality products and superior customer service. More than four decades later, we zealously uphold these principles.

They are not only the cornerstones of our success but also our pathfinders into the future. EAMCO has adapted to all the changes in the market environment and successfully evolved and diversified. Today, our corporate standing is a testament to this ability. Our corporate values centre around our customers in all our relationships, integrity in all commitments, uncompromising quality and individual empowerment. These ideals define our reputation today. As we expand and diversify seeking new frontiers to explore and develop, we are confident that our values will guide us on the right path. We record here our sincere appreciation and thanks to our vast clientele, associates and employees for their inspiring confidence, contribution and support in all our endeavour. As we look forward to a challenging and rewarding future, EAMCO stands committed to the philosophies and ideals that have brought us so far.

Abduaziz Al'Aali
EAMCO CHAIRMAN

A MESSAGE FROM THE CEO

“At EAMCO, we believe that innovation is not just about technology, it's about people. Every day, our team works tirelessly to deliver solutions that don't just meet expectations, but exceed them. We're not just building products; we're building relationships, trust, and a future where technology serves humanity in the most meaningful ways.

Our Vision is to be the most trusted and leading partner in the Bahrain Construction Industry, from offering complete solutions to delivering projects on time and in budget.

Our commitment to excellence, continuous improvement in Health & Safety, and Environmental Standards drives everything we do — from the smallest detail to driving operational and quality excellence, adding customer value, and meeting all customer needs.

Our Team is professional, fully committed, loyal and t vast experience. It's a real pleasure to lead this Team.

Scott Watson
CHIEF EXECUTIVE OFFICER

SINCE 1976

ALL YOU NEED TO KNOW

ABOUT US

Building Bahrain's Infrastructure Since 1976

23,276

COMPLETED
PROJECTS

Thousands of projects delivered across Bahrain — highways, industrial estates, housing and commercial developments.

50

YEARS OF
EXPERIENCE

Five decades of proven expertise in asphalt, concrete and precast, trusted on the Kingdom's most demanding projects.

15,347

SATISFIED
CLIENTS

A growing base of clients who return to us for dependable materials, on-time delivery and consistent quality.

ALL ABOUT EAMCO

Asphalt, concrete and the roads that carry Bahrain forward.

From asphalt and ready-mixed concrete to precast solutions, we supply the materials that build Bahrain's roads, communities and landmarks.

Eastern Asphalt and Mixed Concrete Co. W.L.L. (EAMCO) was established in 1976 to manufacture asphalt, construct roads, and supply ready-mixed concrete in Bahrain. As Middle East economies expanded through the decades that followed, the need for modern, durable infrastructure grew rapidly, creating a widening gap between the high demand for quality construction products and a limited local supply that few producers were equipped to meet.

EAMCO grabbed this opportunity, bridging the supply gap, and has grown steadily ever since. Today, we are known throughout the Kingdom as a supplier of superior quality materials and a best-in-class customer service provider, valued as much for reliability as for the product itself. We are trusted to add lasting value to prestigious projects by applying "Value Engineering" and "Environmental Friendly" methods at every stage of delivery.

OUR COMPANY

STRATEGY

WE STRIVE TO DELIVER SUSTAINABLE GROWTH AND LONG-TERM VALUE TO OUR

Our strategy is built on disciplined growth, operational excellence and lasting partnerships. By investing in modern plant, skilled people and rigorous quality and safety systems, we deliver dependable materials and integrated solutions our clients can rely on time, on budget and to the highest standards.

Mission

To be Bahrain's most trusted and leading partner in the construction industry. We are committed to expanding and diversifying, setting new standards for quality, and building lasting relationships with our customers based on integrity and operational excellence.

Vision

Our mission is to deliver operational excellence by providing superior, high-quality products centered on our customers' needs, while ensuring safe working conditions for our employees and protecting the environment.

COMPANY

OVERVIEW

Eastern Asphalt

Our Flagship Division

As our flagship division established in 1976, Eastern Asphalt is a leader in road construction in Bahrain. We manufacture and lay a wide range of asphalt mixes, contributing significantly to building the Kingdom's road network. We use modern, electronically controlled plants and eco-friendly warm-mix technologies to ensure the highest quality.

Eastern Ready Mix

Ready-Mixed Concrete Supply

Eastern Ready Mix is a major contributor to Bahrain's infrastructure and housing projects. We produce high-quality mixed concrete from advanced, computerized batching plants. All our concrete mixes are approved by Bahrain's Ministry of Works and Housing and are trusted for large-scale projects, including power plants, towers, and residential buildings.

Eastern Precast

Precast Concrete Solutions

Established in 1985, Eastern Precast is one of the largest and leading precast businesses in the Kingdom. We offer a complete solution, including the design, manufacturing, and erection of precast concrete elements. Our products range from pre-stressed hollow-core slabs to complete Integrated Precast Building Systems (IPBS).

Supporting Divisions

Aggregates, Sand & Maintenance

Our In-House Support Divisions To guarantee quality and reliability, EAMCO operates its own in-house support divisions. Eastern Crusher and Eastern Washed Sand plants provide us with full control over the quality of our aggregates and raw materials. Eastern Garage is a fully equipped workshop that handles all preventive and emergency maintenance for our vehicle fleet and plants, ensuring we are always ready to deliver.

Certified Excellence

Our commitment to quality, safety, and the environment is proven. We are fully certified for:

- ISO 9001:2015 (Quality Management)
- ISO 45001:2018 (Occupational Health & Safety)
- ISO 14001:2015 (Environmental Management)

Management System
ISO 9001:2015
ISO 14001:2015
ISO 45001:2018

OUR MAGNIFICENT
EAMCO TEAM

SCOTT
WATSON

CHIEF EXECUTIVE OFFICER

“Our goal has never been to secure the largest contracts, but to pursue the projects where we can build genuine relationships and deliver a truly meaningful impact.”

SANJEEWA BATUWITA
CHIEF FINANCIAL OFFICER

“Discipline today frees our teams to deliver meaningful impact.”

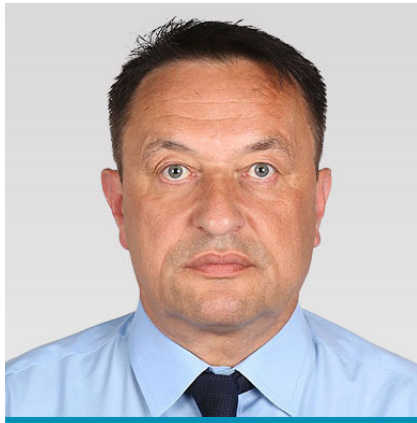

Sound finance is more than balancing the books. It is directing capital where it builds lasting value, managing risk early, and giving every division the certainty to plan for the long term.

STUART MONTGOMERY
ASPHALT GENERAL MANAGER

“A road reflects the standard behind it”

Four decades on the plant floor taught me that quality is set in the mix long before it reaches the road. We control every step, from aggregate to laydown, so our work lasts for years, not seasons.

ERICH WITZGALL
PRECAST GENERAL MANAGER

“Precision in the factory builds confidence on site”

Precast rewards those who plan. By engineering and casting under controlled conditions, we take uncertainty out of the programme and deliver elements that fit first time, every time.

VIVEK RADHAKRISHNAN
GROUP HSEQ MANAGER

“Uncompromising safety is the foundation of exceptional quality”

Excellence cannot exist without a secure environment. By embedding rigorous health, safety, and environmental standards daily, we mitigate risks early. Protecting our people ensures the operational integrity of everything produced.

MOHANED AZIZ
GROUP MAINTENANCE &
TRANSPORT MANAGER

“A well-maintained fleet ensures unbroken progress”

Seamless logistics and peak equipment performance keep our projects moving. By upholding rigorous maintenance standards across our fleet, we ensure teams have the reliable support needed to deliver without delay.

HUSSAIN ALAALI
CORPORATE AFFAIRS

“We build relationships, not just transactions”

Our standing in the Kingdom was earned over decades of doing what we said we would. I help protect it by strengthening the partnerships and standards behind our growth.

BUILDING BAHRAIN ROADS SINCE 1976 EASTERN ASPHALT

OUR VISION

To be the undisputed leader in Bahrain's asphalt and road surfacing industry. We set the standard for quality, sustainability and innovation, paving the way for a modern, connected Kingdom with state-of-the-art, eco-friendly solutions.

OUR MISSION

As the flagship division of EAMCO, our mission is to manufacture the highest quality asphalt and construct durable, long-lasting roads. We are dedicated to our clients' success through a professional approach, rigorous quality control, and a commitment to continuous improvement.

OUR LEGACY

As our flagship division since 1976, Eastern Asphalt manufactures asphalt and constructs roads using state-of-the-art, electronically controlled plants.

CERTIFIED EXCELLENCE

We are fully certified (ISO 9001, 14001, OHSAS 18001) for Quality, Safety, and Environment, making us a preferred infrastructure contractor in Bahrain.

DELIVERING HIGHEST QUALITY

We pride ourselves on project execution, delivering the highest quality and versatility to meet all standards. This commitment defines our business philosophy.

EASTERN ASPHALT

CONCRETE MIX PRODUCTS

A complete range of asphalt and concrete mixes engineered to ministry specifications for every road, runway and surfacing application.

BASE, SURFACE & WEARING COURSES

W 20 (TM 5) - 20mm Gabbro Wearing Course

All-weather 20mm gabbro wearing course for high-stress highways and runways.

SMA Stone Mastic Asphalt

Gap-graded, polymer-modified mix that resists deformation under heavy traffic.

ASTC-20 Airfield Surface Course

20mm HMA with PG binder; smooth, durable and skid-resistant for aircraft loads.

L10 Light Surface Course

10mm gabbro light surface course for tennis courts and footpaths.

BRM 14 PG-Binder Wearing Course

14mm aggregates with Performance Grade Binder; durable and rut-resistant.

B 28 – 28mm Base Course

Placed beneath the surface layer for strength, load distribution and durability.

SPECIALTY MIXES

Sand Asphalt

Fine, workable mix designed for tank bases and levelling layers.

Cold Asphalt

For patching, pothole repairs and temporary surfacing; workable at ambient temperatures.

Red Asphalt – Bridge Deck

Bridge-deck protection layer with polymer-modified binder and red pigments.

EASTERN CRUSHER

AGGREGATE PRODUCTION FACILITY

Stone crushing and grading plant of German make, producing our own aggregate and filling material.

By operating our own dedicated crushing facility, we maintain absolute control over the quality and consistency of our foundational materials. This strategic capability ensures a reliable, uninterrupted supply chain for all our asphalt and construction projects. Our rigorous grading processes guarantee that every batch meets stringent industry specifications, ultimately resulting in superior durability and performance for the roads and infrastructure we build.

HOW WE BUILD

ASPHALT LAYING PROCEDURE

SUBGRADE IMPROVEMENT

Native soil is prepared and compacted for a stable, uniform foundation before any road layers.

SUBBASE LAYER

An insulating layer of crushed aggregate adds structural strength and improves drainage.

ROADBASE LAYER

The primary load-bearing layer distributes traffic loads and prevents deformation.

ROAD OIL SPRAYING

A prime coat binds the roadbase, seals it from water and promotes adhesion.

ASPHALT BASE COURSE

The first hot-mix layer provides the main structural strength of the pavement.

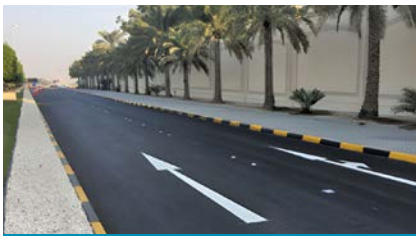

ASPHALT MILLING

Cold planing removes deteriorated layers for sustainable resurfacing.

TACK COAT

A light asphalt emulsion ensures a strong, permanent bond between layers.

WEARING COURSE

The final smooth top layer handles direct traffic and all weather conditions.

FINISHED SURFACE

Compacted and finished to meet required smoothness, density and quality.

OUR WORK

ASPHALT PROJECTS

From national highways to landmark developments, Eastern Asphalt has paved many of Bahrain’s most recognised roads and surfaces.

EASTERN READYMIX

OUR VISION

To be Bahrain’s leading and most trusted supplier of readymix concrete. We aim to be the first choice for all projects, known for our unmatched quality, precision, and innovative solutions that build a stronger, more sustainable future.

OUR MISSION

To supply superior quality readymix concrete that forms the backbone of Bahrain’s infrastructure. We are dedicated to exceptional customer service, reliable on-time delivery, and applying ‘Value Engineering’ to every pour, ensuring our clients’ project success.

RELIABILITY

Eastern Ready Mix has automatic and computerized concrete batching plants of German make. The plants to date have produced over 10 million cubic metres of high quality concrete.

PROVEN QUALITY

The division uses the best quality raw materials like the imported high strength aggregate and high quality cement. All the concrete mixes are approved by Bahrain’s Ministry of Works and Housing.

REBUILDING

Our team ensure the building continues to operate in accordance with its design, including replacing elements which are approaching the end of their useful life to make it effective and functioning.

Sand washing plant of European make, producing high-quality washed raw material.

HOW WE BUILD

READYMIX SERVICES

Precision infrastructure — from automated German batching plants to our in-house laboratory — engineered to deliver consistent, high-quality concrete on every project.

LIEBHERR BATCHING PLANT

State-of-the-art German technology ensuring high-capacity, automated, and precise concrete production for superior, consistent quality on every single project.

ELBA TOWER PLANT

Our high-rise plant provides efficient concrete mixing and rapid, high-volume batching, perfectly supporting the most demanding large-scale project timelines.

AGGREGATE YARD

A large, well-organized yard stocking a wide range of high-quality raw materials, ensuring a consistent, uninterrupted supply for projects of any scale.

CONCRETE PUMPS

Our modern fleet of mobile and stationary pumps allows us to deliver concrete precisely where you need it, even at extreme heights or distances.

CONCRETE MIXERS

A large, reliable fleet of well-maintained truck mixers guarantees your readymix is delivered on time and in perfect, ready-to-pour condition.

CONCRETE LABORATORY

Our in-house, fully-equipped lab conducts rigorous testing, ensuring every batch meets the highest international quality and strength standards without fail.

OUR WORK

EASTERN PRECAST

OUR VISION

To be Bahrain's largest and most trusted partner for precast solutions. We aim to lead the industry by using innovative technology to deliver a complete range of architectural and structural products for a modern, fast-paced Kingdom.

OUR MISSION

To design, manufacture, and erect superior-quality precast components and hollow-core slabs. We leverage our massive facility and expert team to provide reliable, practical, and economical building systems for both government and private sectors.

OUR COMMITMENT

Since 1985, we've built sustainable infrastructure, balancing economic, social, and environmental impacts to meet present and future needs.

CERTIFIED QUALITY

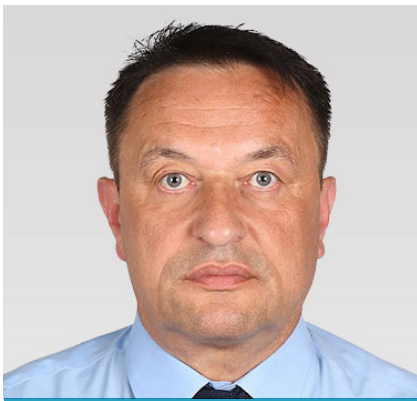

Our quality policy covers all products and services, proven by our EN ISO 9001, EN ISO 14001, and BS OHSAS 18001 accreditations.

COMPLETE SYSTEM

Our Integrated Precast Building System (IPBS) offers high-quality components, design flexibility, and economic benefits, ensuring rapid construction speed.

WHAT WE OFFER

OUR SERVICES

Engineered, certified and built to British Standards, from material control to on-site erection.

CERTIFIED MATERIALS

Cement, fly ash, aggregates and admixtures all strictly comply with the relevant British Standards (BS EN 197, 450 and 12620).

STANDARDS COMPLIANCE

Every input is certified: fly ash to BS EN 450-1, aggregates to BS EN 12620 and admixtures to BS EN 480.

QUALITY CONTROL

Produced on the latest Elematic batching plant technology under a highly controlled and maintained operational standard.

DESIGN

Our team of qualified designers brings experience from a vast number of projects across the Gulf region.

DELIVERY & HANDLING

Products are carefully lifted and supported throughout manufacturing, stockpiling, transportation and erection.

ERECTION

We provide complete erection works on site; the contractor ensures suitable access for trucks and cranes.

PRODUCTION

Every project is unique, so a tailored method statement defines technical and client requirements before production begins.

LIGHTWEIGHT PANEL

Our thermal insulated panel is a solid concrete unit made up of lightweight aggregates.

JUMBO SLABS

Jumbo slabs offer optimised design across varying thicknesses, engineered to carry heavy loads.

QUALITY & MAINTENANCE

TRANSPORT DIVISION

The EAMCO Transport Division operates a fleet of trucks, trailers, and tankers that support all divisions by delivering the materials required for construction projects and production plants. The department plays a vital role in ensuring the timely and efficient movement of materials, contributing to uninterrupted project execution and plant operations.

A TRANSPORT MAINTENANCE HUB

A fully equipped, in-house maintenance hub dedicated to keeping our heavy vehicle fleet operating at peak performance and ensuring uninterrupted project delivery.

EASTERN GARAGE

Eastern Garage serves as a comprehensive maintenance and storage hub. Its description is broken down into two main functional areas.

EQUIPMENT

Service bays, welding, denting and painting, puncture and machinery workshops, a diesel station and steel fabrication handle all periodic, preventive and emergency maintenance for our mobile equipment.

CAPACITY

Covering our vehicle fleet and static plants, Eastern Garage also hires out spare capacity of heavy vehicles and mobile plants short-term. Central stores on-site hold spare parts for all plants to meet urgent needs across the producing

FUEL STATION

A dedicated on-site fueling facility ensuring our heavy vehicles and transport fleet are consistently fueled and ready for immediate deployment without relying on external providers.

WAREHOUSE

A comprehensive central store housing essential spare parts and maintenance components for our entire vehicle fleet, ensuring rapid repair turnaround times and minimizing operational downtime.

CENTRAL GARAGE

A secure, expansive staging hub dedicated to safely housing EAMCO's extensive fleet of heavy vehicles and mobile plants when they are not actively deployed on-site.

Eastern Asphalt and Mixed Concrete Company W.L.L.

IMS POLICY

Doc No. : EAM-IMS-POL-01
Issue : 7
Rev. : 01
Date : 01.02.2026

We at Eastern Asphalt and Mixed Concrete Co. W.L.L. are committed to achieving and continually improving our Integrated Management System and enhancing the QHSE performance in all our business operations, namely;

- Eastern Asphalt and Surfacing Division** : Manufacture, supply, and laying of bituminous materials and related civil works.
- Eastern Ready Mix Concrete Division** : Manufacture and supply of ready-mixed concrete.
- Eastern Precast Concrete Division** : Design, manufacture, and erection/installation of hollow-core slabs and precast concrete units. And all its support activities, or a combination thereof.

We are committed to providing quality products to all our customers and to satisfying applicable requirements or fulfilling our compliance obligations related to quality, health, safety, and the environment.

We are committed to protecting the environment, including preventing pollution.

EAMCO Health and Safety Policy confirms the company is committed to providing safe and healthy conditions to prevent work-related injury and ill health among employees and other interested parties within our control, eliminate workplace hazards, and reduce occupational health and safety risks to achieve EAMCO's objective of zero LTI accidents across the divisions

We are committed to the consultation and participation of workers and their representatives regarding Occupational Health and Safety Management System-related requirements, as applicable.

This IMS policy aligns with the organization's determined Quality, Health and Safety & Environmental context and supports its strategic directions, while considering the QHSE risks associated with our activities, products, and services.

This policy serves as a framework for setting our QHSE objectives and will be reviewed periodically for its adequacy during management review meeting as part of the agenda.

This policy shall be made available to relevant interested parties as appropriate.

EAMCO HEALTH & SAFETY POLICY

الشركة الشرقية لإنتاج الأسفلت والخرسانة ذ.م.م
Eastern Asphalt and Mixed Concrete Company W.L.L.

HEALTH AND SAFETY POLICY

Doc No. : EAM-HSE-POL-1
Issue : 01
Rev. : 0
Date : 01/02/2026

Eastern Asphalt & Mixed Concrete Co W.L.L (EAMCO) is a trusted partner in the Bahrain construction sector supplying materials for major industrial, infrastructure and housing projects.

The Company comprises 3 Divisions under the Management of the Divisional General Managers and Supporting Line Managers.

1. Eastern Asphalt.
2. Eastern Ready Mix.
3. Eastern Precast.
4. Supporting – Garage and Transport.

EAMCO is fully committed to complying with the Kingdom of Bahrain Health and Safety Regulations (Labour Law for Private Sector 2012 Law No 36 and Ministerial Order No 8 of 2013) setting out Employer Obligations, Risk Mitigation, Employee Duties, Training & Information, Hazard Management, Medical & Welfare and Reporting.

EAMCO is committed to maintaining the highest standards of Health & Safety by devoting the human and capital resources necessary to create a working environment in which our people can work without injury and illness.

EAMCO firmly believes that the management of Health and Safety is the responsibility of all employees but must be led by Management.

All employees recognize their responsibility for managing Health and Safety within the company's operations and believe all injuries at work are preventable.

Working Safely is a condition of employment for all employees and contractors.

Divisional General Managers, including the Garage & Transport Manager, are responsible for Managing Health and Safety within their respective Divisions.

Divisional General Managers, including the Garage & Transport Manager, will demonstrate effective Health & Safety Leadership characterized by exemplary performance that adheres to all Safety Protocols including proper use of PPE, compliance with all Safety Procedures, including the timely reporting of accidents and incidents, their full investigation with Safety Officer input, and the implementation of the Recommendations.

Eastern Asphalt and Mixed Concrete Company W.L.L.

HEALTH AND SAFETY POLICY

Doc No. : EAM-HSE-POL-1
Issue : 01
Rev. : 0
Date : 01/02/2026

Divisional General Managers including Garage & Transport Manager will direct all their Line Managers to –

- Take initiative to address potential risks promptly.
- Plan and resource Health & Safety compliance.
- Establish Training needs with the Safety Officers and together close out the Training.
- Monitor, measure and review Health and Safety performance with the Safety Officers, against Targets set out in the GM's Division Improvement Plan.
- Take appropriate action against any employee or contractor who fails to uphold Company Safety Rules, Standards or breaches in Bahrain Health and Safety Regulations.
- Ensure all employees competently undertake their duties without causing injury or ill health to themselves or others or damage to property, plant and equipment.
- Access Health & Safety risks of all Plant processes, procedures, substances and equipment to implement effective Safe System of Work.
- Not allow any Employee or Contractor to undertake a task unless it can be completed safely.

The Company Health and Safety Manager assisted by the Divisional Safety Officers will create, implement and monitor Safety Protocols, ensuring compliance with the Bahrain Health and Safety Regulations and fostering a Culture of Safety within the organization.

The Company will ensure a framework is in place to establish and review our Health and Safety objectives and continually improve the effectiveness of our Health and Safety performance.

Scott Watson
Chief Executive Officer
February 2026

Adel Al A'Ali
Chairman
